Software Release Download Instructions

Before downloading the new version please take a backup and close Sage WageEasy.

There are two download options available.

1. For standard download, please select the download link below:

<http://portal.payrollsoftware.com.au/assets/Setup7570.zip>

2. For those users with specific environmental constraints, please select the link below **after** consulting your IT personnel.

http://portal.payrollsoftware.com.au/assets/Setup7570_NoAdmin.zip

Follow the instructions below to complete the download:

[Sage WageEasy Version 5.2.5.7570 Download Instructions:](#)

1. **Back-up** your database.
2. Click on the software download link above and you should automatically be directed to the download page. If this does not happen, please copy and paste the link into your web browser.
3. A window will appear asking you to either *Save* or *Open* the file. Please select *Save* and then select either your desktop or another easily accessible location to save the file. Once the download has started you will see folders transferring across your screen.
4. Once the process is complete, select *Close* and you will see a new icon/file on your desktop or selected location called **5.2.5.7570.zip**.
5. Right click on the zip file and then select *Extract* or *Extract All*. Choose the location where you would like the file to be extracted to and select *Extract*. This may be on your desktop or the same location selected in Step 3.
6. You should now see a new folder named **Setup7570** on your desktop or selected location. Double click on this folder icon and then double click on Setup7570.exe to launch the installation wizard. By default, installation will go to the default location of **C:\Program Files(x86)\Wage Easy Payroll**.

Note: The extraction process may differ based on the version of Windows you are currently using.

7. Once complete, right click on the Sage WageEasy icon and run the application as an administrator and open your database. You will be prompted to upgrade. Please note that upgrading the database should be a relatively quick process but this is dependent on your particular IT environment.
8. Once the upgrade is complete, continue to use Sage WageEasy as normal.
